WORLDWIDE, UNRESTRICTED AIR AMBULANCE SERVICE

FAI Air Ambulance

MARKET LEADER IN PATIENT TRANSPORT BY AMBULANCE JET

With over three decades of experience, using highly trained intensive care physicians, nurses and paramedics, equipped with the latest on board medical equipment and technology, FAI leads the way amongst air ambulance operators around the world. Fast response time for quotations and flight preparations, and widely recognized superior performance in airlifting ICU-patients by air ambulance jet, have made our company the pioneer in the global aeromedical aviation industry.

FAI is the most sought-after aviation partner for the insurance and assistance industry, for large corporations, for IGO's including ICRC (International Committee of the Red Cross), WFP (World Food Program) and for government agencies. We have been supporting the world's largest NGO's peacekeeping operations for more than 15 years with dedicated air services.

- ✓ CRITICAL CARE CERTIFIED BY EURAMI
- ✓ FLEET OF LEARJET 60, CHALLENGER 604 AND GLOBAL EXPRESS (BD700)
- ✓ STATE-OF-THE-ART MEDICAL EQUIPMENT
- ✓ BEST AVAILABILITY & SHORT ACTIVATION TIMES
- ✓ EXTENSIVE EXPERIENCE IN HOSTILE AREAS
- ✓ 35 YEARS IN BUSINESS
- ✓ AIR AMBULANCE COMPANY OF THE YEAR 2020 AND 2021

FAI Air Ambulance

FLEET OVERVIEW

MIDSIZE JET

LEARJET 60

Bombardier Learjet 60 – cost effective jet with impressive range and speed, enclosed lavatory for crew and patient family members, air conditioning on ground

RANGE 4.450 KM ■ 2.405 NM

CRUISE SPEED 780 KM/H ■ 0.73 MACH ■ 420 KTS

MEDICAL CREW Flight Doctor + Flight Paramedic / Nurse

CAPACITY 1 Intensive Care Patient or 2 Non-Intensive Care Patient

HEAVY JET

CHALLENGER 604

Bombardier Challenger 604 – best long-range jet in its class, heavy crew capacity for time-critical cases, equipped for virtually every critical care scenario

RANGE 6.850 KM ■ 3.700 NM

CRUISE SPEED 900 KM/H ■ 0.85 MACH ■ 488 KTS

MEDICAL CREW Flight Doctor + Flight Paramedic / Nurse (Additional Med Crew Member possible)

CAPACITY 1 Intensive Care Patient + 1 Patient on 2nd Stretcher + 2 seated Patients

ULTRA LONG RANGE JET

GLOBAL EXPRESS

Bombardier Global – Superior range, spacious high-end cabin for all kind of nonstop ICU transfers, well equipped interior, lots of storage space

RANGE 11.140 KM ■ 6.180 NM

CRUISE SPEED 900 KM/H ■ 0.85 MACH ■ 488 KTS

MEDICAL CREW Flight Doctor + Flight Paramedic / Nurse (Additional Med Crew Member possible)

CAPACITY 1 Intensive Care Patient + 1 Patient on 2nd Stretcher + up to 8 seated Patients

FAI Air Ambulance

OVERVIEW MEDICAL EQUIPMENT

INTENSIVE CARE UNIT

Spectrum Aeromed intensive care unit with stretcher (adjustable backrest) and vacuum mattress | oxygen supply, compressed air and vacuum pump | 110/230V + 12/24V power supplies | Medwall with working light

OXYGEN CAPACITY

4.000 l (per intensive care unit) plus up to 10.800 l in carbon high pressure cylinders

RESPIRATION SYSTEM

Hamilton T1 | Hamilton H900 humidifier (adults, pediatrics, neonates) | Aerogen Solo Nebulizer

MONITORING

Zoll X Series | BeneView T1 (invasive and non-invasive blood pressure measurement, pulse oxymetry, capnometry, temperature measurement, ECG monitoring)

DEFIBRILLATOR

Zoll X Series (with external cardiac pacemaker)

SYRINGE PUMPS

Fresenius Agilia Injectomat

INFUSION PUMPS

Fresenius Agilia Volumat

BLOOD GAS ANALYSIS

Siemens Healthineers EPOC

PORTABLE SUCTION UNITS

Laerdal LCSU 4

EMERGENCY BAGS/BACKPACKS

Extensive equipment for emergency and intensive care (e.g. videolaryngoscop, chest tube, urinary catheter, arterial catheter, surgical instruments, coniotomy, central venous line, care products)

MEDICATION

Standard medication for emergency and intensiv care medicine | narcotics | antidotes

PEDIATRIC EQUIPMENT

Babypod transport incubator I & II with Kanmed BabyWarmer | Incubator Dräger 5400 | intensive care backpack pediatric | additional emergency and intensive care medicine

MOBILE PATIENT ISOLATION

EpiShuttle (only CL 604) | IsoArk N-36 | additional special equipment

SPECIAL EQUIPMENT CHALLENGER 604 / GLOBAL EXPRESS

Patient loading system (loading ramp or lift) | carrying chair | scoop stretcher

SPECIAL EQUIPMENT IF NECESSARY

ECMO transport equipment | pacemaker | wound pump | blood units | anti-decubitus mattress | heavy weight stretcher

FAI Air Ambulance

FLIGHT CREW

10
aircraft in service

Besides routine check flights, our pilots undergo at least once per year regular simulator-check-rides, which is more than by EASA / FAA required. All our pilots in command must show several thousands of flight hours in their records. That's only one of several special company regulations, that reflects that FAI pilots always are more experienced than actually required by the Civil Aviation Authorities.

> 100x
around the
world per year

FAI 's pilots all have a broad knowledge of worldwide air ambulance flight services. Among the selection criteria for hiring, the pilots must be able to document extensive experience of several years in the field of special flight services.

> 140
countries per year

WITH DESTINATIONS IN MORE THAN 140 COUNTRIES, INCLUDING HOSTILE AREAS LIKE LYBIA, IRAQ OR AFGHANISTAN, FAI AIR AMBULANCE DEMONSTRATES SAFE AND RELIABLE SERVICES.

1000
missions per year

FAI HAS ONE OF THE BEST AIR AMBULANCE SETUPS WORLD-WIDE
